Full Stack Developer with more than 4 years of experience developing web and mobile applications, using different technologies such as React, React Native, Node, Java, AWS, Java and TypeScript. I have extensive experience in consulting, where I have had to work with several clients from different areas. I am currently looking for a remote position as Front-End or Full Stack Developer, however, I'm always open to new challenges.

EXPERIENCE

Globant —*September 2021 - Current*

Full Stack Dev.
- Creation of UI components for a cybersecurity company, managed the UI for 2 different applications and its design system that has different features such as data visualization components, data tables, etc..
  Tech Stack: React, TypeScript, GraphQL, React Query, Gitlab, Storybook, Nx, Visx, AWS, Jest, Node, Redux.
